Strong As An Oak

Anna Tabbush

From an acorn asleep in the earth
To a sapling worn by the weather
The green oak grew till it's leaves kissed the sky
And under it's branches we gather

When we stand side by side
And our voices unite
We are strong as an oak in all weather
When we stand side by side
And our voices unite
We are strong when we're singing together

Strong as an oak

Like the oak tree grows sturdy and strong
Our numbers have grown in these decades
A wide canopy welcomes all who love song
And comforts us in our dark days
